Shut Down, But Still Busy

Editor and Production: Dave Dennis

As our club continues to be dark due to the Covid-19 virus, we'll try to keep you updated on what members are doing.

A Most Worthwhile Project: **Randy Smith** with the help of a few Rotarian volunteers has been clearing damaged trees and accumulated flammable debris from the Riverview Golf course and the Buenaventura-Teton areas for at least the last six months. Rotarians who have worked on one or more of the three following projects are **Randy Smith, Jack Kimple, Mark Wood, Ken Seamans, Steve Fitch, and Jim Chapin**. A great deal of the time **Randy** is working by himself.

Slash and debris at 5R project start

and the Broken Trees Project at Mike Mangas' backyard. The 5R project and the Riverview Slash Abatement Project has consumed over 50 work days since last December.

They can use more help! It is a mammoth task and they work on it simply because it needs to be done to stave off another catastrophic fire like we saw in the Carr fire.

There are three ongoing projects, the Riverview Slash Abatement Project, 5R (Redding Rotary Riverview Riparian Recovery),

Same area today.

Again, **They can use more help!** Contact Randy Smith to find out how you can help. He can be

reached at C: 356-6704 or randall_smith@charter.net.

Let's give these guys a hand for a very useful project!

Plenty left to do -- Call Randy to help

Piles being burned at Riverview

The following article was submitted by Randy to document two hours worth of work on Broken Trees Project.

L-R Mike Mangas, Mark Wood, Jack Kimple

Just as they arrived, the Kimplewood Detachment of RCR's Allied Stream Team departed at noon today uphill into the gloom of a pouring 46 degree rain. In two hours of volunteer labor, retired physicians Rotarians Jack Kimple and Mark Wood joined landowner Mike Mangas and Pvt. Creeky to dismember, haul, pile and burn a double garage full worth of downed timber from more than a year ago storms. Everything from pine needles to one foot diameter tree trunk sections went skyward quickly and safely. The permitted labor would have been difficult on level ground, but on a thirty degree slippery slope, it was almost biblical.

This is it. The day your dogs have all been waiting for. The day they realize their owners can't leave the house and they get you 24/7! Lol. Dogs are rejoicing everywhere. Cats are contemplating suicide. 🤔
