Today's Program - Opioid Issues and Solutions in Shasta County

Rick Plummer introduced today's presenter, **Joanne Barber**, Mercy Medical's Emergency Room Director. With emergency rooms being on the front lines of opioid addiction, Joanne is uniquely qualified to speak on this topic. With sharp increases in opioid use and addiction over the last 10 years, she noted that much of this addiction originates with narcotic prescriptions. Shasta County is noted as having one of the highest opioid prescription rates in the State of California.

Mercy Medical Center took a proactive course to help address this national and local epidemic by taking part in the grant-based California Bridge Program. This allowed the hospital to bring in a substance use navigator to develop the local program. The main goal of this program is to treat opioid addicted patients with safe medications to bridge them to out-patient care centers, leading to the successful cessation of their addictions. She noted that Redding Rancheria is the local out-patient care center being used.

Some of the successes of this program are described in the following slide:
