Today's Program - Nicaraguan Coffee Revisited

Today's program was given by our own **Bruce Dean** as he provided an update on the great work being done by Black Bear Diner in Nicaragua.

Several years ago, Black Bear identified Nicaragua as the country they wanted to source the coffee that would be served in their restaurants. This country was chosen because of the potential to make positive impacts on the communities that would be growing and harvesting their coffee.

Here are some stats on Nicaragua:

- 2nd poorest country in the Western Hemisphere.
- Least developed in Central America.
- Only 68% of the population has access to improved, clean water.
- Only 29% have water piped in or delivered to their homes.

Given that it is often kids who are tasked with walking great distances to bring water by the bucket-fuls to their homes, many miss out on school with only 51% of children reaching the 5th grade.

With these facts in mind, **Bruce** and the Black Bear team have prioritized giving back with clean water infrastructure and support to school children with much needed backpacks with school supplies.

Three of the water projects completed to date that are bringing clean drinking water directly to the locals are pictured here. **Bruce** mentioned that all of families benefiting have contributed to the work themselves in the form of digging trenches, laying pipe, and contributing financially to the ongoing maintenance of the systems.

Here are a group of students with their Black Bear Diner backpacks. Although 5,000 have been supplied, there is a need for 40,000 more.

Bruce said that in the future they hope to provide medical care of some kind to the region.

The Four-Way Test

of what we think, say or do

1. Is it the truth?
2. Is it fair to all concerned?
3. Will it build good will and better friendships?
4. Will it be beneficial to all concerned?
